

Society of Vacuum Coaters Foundation

www.svcfoundation.org

"The Society of Vacuum Coaters has provided a hands-on forum and networking environment for real-world application of vacuum coating technologies. The SVC Foundation was created and continues to educate future innovators and users of current and still-to-be invented vacuum technologies."

—Paolo Raugei, Chair, SVC Foundation

SVCF Board of Directors (2014):

Contributions to the SVC Foundation, a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code, are deductible as provided by law. All donors receive special recognition and acknowledgement, unless they request to be anonymous. Donations are matched dollar-for-dollar by the SVC.

Supporting Organizations

Founder and Supporter

Supporter

Sponsor the Annual 5K Fun Run and Golf Tournament

One way to support the Foundation is to sponsor the SVC Foundation 5K Run and/or the Golf Tournament. Choose from these special event sponsor opportunities:

- \$300 - Golf Sponsor
- \$300 - 5K Run Sponsor
- \$500 - 5K and Golf Sponsor Package

Thank you to our Special Event Sponsors:

Help introduce someone to what we do

SVCF Sponsored Students

Your donation supports the SVC Foundation in its efforts to help students learn about and contribute to Vacuum Coating Technology

Society of Vacuum Coaters Foundation

www.svcfoundation.org

Founding Principle: The Society of Vacuum Coaters recognizes that in order to sustain its growth, it is important to attract young, well trained individuals to the field of Vacuum Coatings.

The SVC Foundation pursues this principle by providing scholarships to well qualified students planning to enter fields related to vacuum coatings, and/or providing stipends for travel expenses to attend the annual SVC Technical Conference, usually to present technical papers. The Society of Vacuum Coaters (SVC), the SVCF's founder, and AIMCAL, an organization committed to advancing vacuum roll-coating technology, and their members, provide support for the Foundation to pursue these goals.

Since its inception in 2003, the SVCF has awarded 38 scholarships to students from 18 countries. Our support can really have an impact in the life of these students; quoting a recent award recipient:

"Not only does the scholarship give the gift of financial support and the possibility to continue learning, it also gives those that have a passion for vacuum coating the blessing of attending such a wonderful program [SVC TechCon] to network and further their knowledge."

Inviting scholarship recipients to the SVC TechCon is an important element of the overall strategy for attracting new talent to our industry. Scholarship beneficiaries carry a special identification on the TechCon badge and we encourage you to meet them and make them feel welcome.

Scholarship Applications must be postmarked by November 30th of each year.

Our Donors and Supporters

More than 300 individuals and organizations have contributed to the SVC Foundation. Every year, many companies support us through Sponsorships of the 5K Run and Golf Tournament.

We invite all SVC Members and their organizations to make a financial contribution to the SVC Foundation. Supporting our program means educating and retaining young and talented students to our industry and the Society, thus providing a long term benefit to all its members.

The Society of Vacuum Coaters, our founder and supporter, provides ongoing support every year through a matching grant, which means that your financial contribution can have a double impact on the Foundation.

"My affiliation to Fraunhofer... combined with my multiple international activities in Europe, Asia, Africa and the U.S. will be an excellent starting point as we continue to expand our international outreach and invite new scholarship recipients from around the world."

—Wolfgang Diehl, SVC President

"AIMCAL is proud to support the SVC Foundation for the fine work that they have done to provide scholarship opportunities for students around the globe. AIMCAL's ongoing support of the Foundation's Bernard Henry scholarship fund has allowed our association to recognize the contribution of Dr. Henry and continue his work in educating young people." —Craig Sheppard, AIMCAL Executive Director

Download the "Vacuum Wizard" Video

Don McClure's "Vacuum Wizard" video brings to life the fundamentals of vacuum and vacuum coating technology. Use this presentation

as a training tool for anyone wanting a basic understanding of vacuum technology. Download the video at <http://www.svcfoundation.org/id21.html>

The Jane and Frank Warchol Fund has allowed the family to continue to support the future of the SVC.

Our Scholars 2014 SVC Scholarship Winners

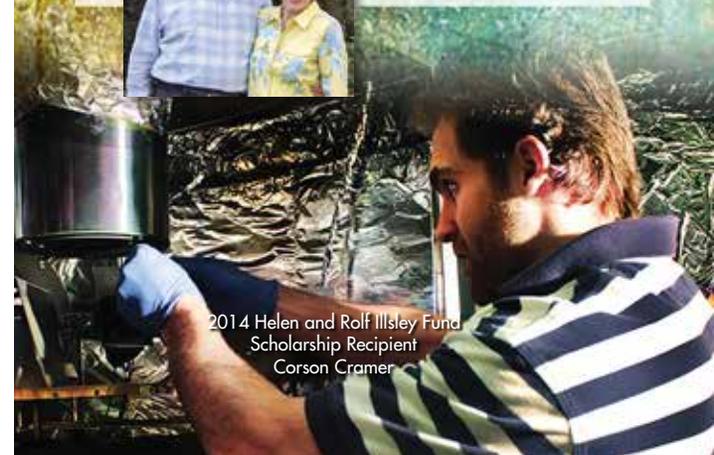

Houman Savoji
École Polytechnique de Montréal, Montréal, Quebec
"As a recipient of the Jane and Frank Warchol Fund scholarship... I would like to express my sincere gratitude for this prestigious award. I was very happy, appreciative and fortunate to learn that I was selected as the recipient of this honor."

Md. Haider Ali Shaim
Old Dominion University, Norfolk, VA
"By awarding me the Jane and Frank Warchol Fund scholarship, I will be able to put emphasis on my research and put all the effort into doing well in the work. Your generosity is allowing me to make my goals and dream a reality."

Mackenzie Devoe
Massachusetts Institute of Technology, Cambridge, MA
"I am currently a junior at MIT, majoring in Material Science and Engineering. I have been doing research with NECSTLab (Nano-Engineered Composite aerospace Structures Lab) since the beginning of my sophomore year, and it's been a truly enriching experience. I can't thank you enough... and hope you know the difference your encouragement has made."

The Helen and Rolf Illsley fund is a reflection of their commitment to helping the vacuum coating industry continue to grow.
